

In collaboration with UNSW, UTS, Sydney University
and the K2W Link's Glideways program,
the Landholder Collaboration Project
presents:

K2W gliders monitoring workshop

Photo: Feathertail glider by eyeweed, Creative Commons

Local communities and landholders are essential for glider conservation by protecting habitat, providing corridors through revegetation, and installing nest boxes. Long-term monitoring is important to measure conservation progress and plan strategically. This workshop will cover:

- How to identify and monitor gliders on your property
- How to improve glider habitat and corridors
- Why working together for glider conservation is beneficial
- How to upload the information onto an online collaborative tool
- How to use this data to make more informed land management decisions

Workshop details:

When: Monday 7 August, 12 – 3 pm. Lunch is included.

Where: JT Pridham Conference Centre
NSW DPI Agricultural Research Station
296 Binni Creek Road, Cowra

RSVP: 1 August, <https://goo.gl/1wJ5uD>
or contact Emily Berry on 0432 174 850 / e.berry@unsw.edu.au
